What is The Society of 75?

This year we are adding the Society of 75 to the ranks of our supporters. It is our hope to draw members from the metro Atlanta business community. This exclusive society will be comprised of 75 individuals or organizations that believe in and are committed to the success and empowerment of entrepreneurs as a means to alleviate poverty. Members will commit to a $1,000 a year* contribution and will be asked to sit on the Edge Connection Advisory Council. As a Council member you will help shape and foster an innovative center of excellence committed to job creation and economic growth through microenterprise and small business development.

We invite you: to become a member this exclusive society and join us in this important mission. Together we can open new worlds and create new possibilities. Together we can empower people to take charge of their lives and achieve self-sufficiency. Together we can make a difference.

“Our clients become role models who say, “If I can do it, so can you.” We teach them the skills to become self-sufficient and self-sustaining. We help them turn their dreams into reality.”
