8) If you are nominating someone you know, please include your name and contact information.

The Edge Connection's Veteran's Scholarship Initiative provides scholarships to local veterans who desire to launch a business, or who need assistance with growing, expanding, or sustaining their current business.

Empowering and Developing Georgia Entrepreneurs
The Edge Connection's Veteran's Scholarship Initiative provides scholarships to local veterans who desire to launch a business, or who need assistance with growing, expanding, or sustaining their current business.

Who is The Edge Connection?
The Edge Connection is a 15-year entrepreneurial development center dedicated to serving low-to-moderate-income women, minorities, and veterans to help them achieve long-term financial independence through entrepreneurship. We are committed to the delivery of best practices in micro and small business development, including business plan development classes, workshops, consulting, on-site database access, financial planning and development, access to capital support, and other supplemental resources focused on business start-up, growth, expansion, and sustainability.

Giving to Those Who Gave to Us:
The Edge Connection is committed to giving back to those who serve our country by providing veterans and active military with the knowledge and skills to become self-sufficient by providing the education, support, and resources needed to successfully own and operate sustainable businesses. Veterans returning to civilian life face an enormous adjustment in the civilian workplace, an environment which is vastly different from the military. Entrepreneurship allows a veteran the ability to maintain a sense of power and to use his/her innate strengths, talents, and interests to become a financially independent business owner.
